I send weekly (sometimes daily) emails to my friends and family. It's literally just content shamelessly stolen from thedonald and formatted for normies. It's my little red pill to start getting people acquainted with the truth. I figured I should post the one I just sent out here in case any of my fellow pedes would like to send it to their friends and family! Full email below.

Hi Friends,

I've spoken to so many people today who had no idea about the happenings since Friday - I mean no idea - so I've put together a quick "News Update" so everyone knows what's going on (since network news won't cover it). I'm sure by now we're all aware our news networks are owned by China, so ... I guess email will have to do!

1. The electoral college sent in electors today. In addition to the electors the media is reporting, all swing states sent in alternate electors. This includes Georgia, Pennsylvania, Wisconsin, Nevada, Michigan, New Mexico and Arizona. This is perfectly legal and has happened in prior elections. For more information, please read about our electors here: <https://www.ncsl.org/research/elections-and-campaigns/the-electoral-college.aspx> <https://edsitement.neh.gov/curricula/presidential-election-1824-election-house>
2. A list of two million Chinese spies was released. They're embedded in our government, news agencies, Google, Youtube, Facebook, and universities. I do personally have the list but uploading it will not be feasible in this email. The news will probably report on it in a week.
3. The Supreme Court tossed the Texas lawsuit due to "lack of standing under Article III" but added very specifically that it is not disputed on merit and can be resubmitted by any party who has standing (i.e. Trump). Here is a link to the complaint, motions, and motion of leave: <https://www.supremecourt.gov/search.aspx?filename=/docket/docketfiles/html/public/22o155.html>
4. The forensic report on the Dominion Voting machines was unsealed by a Michigan judge. In it the full case for election fraud is shown, down to the exact error rate and all proof that's needed to show foreign interference in our elections as well as domestic cheating: [https://www.depernolaw.com/uploads/2/7/0/2/27029178/antrim_michigan_forensics_report_\[121320\]v2\[redacted\].pdf](https://www.depernolaw.com/uploads/2/7/0/2/27029178/antrim_michigan_forensics_report_[121320]v2[redacted].pdf)
5. The FBI's criminal investigation into Hunter Biden's tax evasion and money laundering from foreign funds (Burisma and China) has expanded to include an apartment where Hunter asked the landlord for a copy of the key for Joe Biden, Robert Biden, and a Chinese CCP member. A couple of you have asked if I've seen the Hunter Biden scandal pics. Yes. Yes I have. All of them. Omg.
6. DHS, Dominion Voting, the NSA, US Treasury, and Commerce Departments were hacked through a vulnerability in SolarWinds. SolarWinds creates the software our government and many Fortune 500 companies use, and a 3rd party slipped malware into the SolarWinds software, which was then distributed throughout the U.S. This is a major foreign attack on us, the results of which we will not discover for weeks and months to come. Press release here: <https://www.solarwinds.com/securityadvisory>

8. A US intel report was leaked, containing information showing that Eric Swalwell, democratic congressman who sat on the House Intelligence Committee, was targeted by Chinese spy Christine Fang.

That's all for now folks!
